Preventive care keeps women healthy! Requiring insurers to cover preventive health care like contraception, breast feeding support, and screening for domestic violence and HIV -- without charging co-pays -- makes these services affordable for more women and helps women stay healthy.

Employers should not be able to deny a woman this coverage. Medical experts agree that this preventive health care is necessary for ALL women, and that contraception is preventive care.

Religious employers should be allowed to usurp any woman's right to make her own decisions!

REMOVE the proposed religious employer refusal provision from your Women's Preventive Services rule!
